

Camino Talks

- The mystical path -

When we hiked the Camino with a group for the first time in 2022, it became clear to us already on the first day how we wanted to do it. We now invite you to walk along the ancient pilgrimage route toward Santiago de Compostela in Camino Talks - the Mystical Path.

We want to walk together, and experience the ancient pilgrimage route, in walking, meditation and conversation with each other and the nature.

We want to walk in the mystery of being human. We want to walk in conscious exploration of being part of an intimately connected greater whole. Exploring the connections to others and the world in layers and dimensions beyond those we are trained to see. And we want to walk to experience the walk, the food, the road and the meetings.

As always, we work with the simple ways to meet ourselves. Firmly based in science, personal experience and years of leading inner and outer journeys, we welcome you on a journey out into the world and into yourself.

We begin the journey in virtual meetings in May, June and August to open an inner process, and create conditions for the walk to become a deeper experience.

The third week of September we walk together. We gather in Saint Jean Pied du Port 21/9, and finish after 6 days of hiking just over 100 kilometres, to travel back home 27/9.

We start and end the days together. Sometimes with meditations along the way. Sometimes in facilitated dialogue. Sometimes individually, holding a question.

Pricing* [EUR]: Private: 990. Small enterprise: 1,190. Corporate: 1,390

*Travel, food and accommodation not included.
